

Latest ALH Toplist Covers Four Areas

Each year, Access, Lift & Handlers produces four toplists that rank North America's telehandler, aerial and mast-climbing rental companies. The fourth toplist, scaffolding, ranks erecting and dismantling companies across North America. These lists provide an in-depth look into the North American access and telehandler markets, giving readers an analysis of market conditions.

This special 2012 ALH toplist combines all four access and material handling areas with extended commentary and examination. ALH has fleshed out each toplist by providing additional background information on every company listed and ranked.

The report is in English and is available for \$80: <http://www.khl-infostore.com/alh-access-lift-handlers-2012-top-list>.
