

AISC Offers Free Arc Welding Safety Webinar February 28

To help steel fabricators and erectors learn about the fundamentals of arc welding, AISC is offering a free webinar on **February 28, 2014**. The presentation will discuss safety hazards (welding fumes and gases, arc rays and electric shock), OSHA regulations, ANSI standards and general business practices. To register for the webinar, go to www.aisc.org/weldingsafetywebinar.

Carl J. Peters, director of technical training for The Lincoln Electric Company, will present the webinar and answer your questions live following the webinar. Anyone can tune in; all you need is a computer and an Internet connection.

The 75-minute webinar will begin at the following times, relative to time zone:

9:30 a.m. PST
10:30 a.m. MST
11:30 a.m. CST
12:30 p.m. EST

There is no fee to attend the webinar but registration is required. Registrants will receive access to a PDF file of the presentation slides prior to the webinar as well access to view the webinar recording.

To learn more about AISC's live webinars, visit www.aisc.org/webinars. For more information on safety in the fabricated and erected structural steel industry, visit www.aisc.org/safety.
