ASPE Earns Highest AISC Certification

[American Steel & Precast Erectors](#) recently earned certification at the highest level of Steel Erector Certification offered by [AISC](#) (American Institute of Steel Construction). ASPE is currently the only contractor in North America qualified to the highest level of certification available to Steel and Precast Concrete Erectors by the AISC, the [PCI](#) (Precast / Prestressed Concrete Institute) and the [CWB](#) (Canadian Welding Bureau).

American Steel recently completed its first International Project, [351 Water Street](#) in St. John's, Newfoundland and works all over New England, New York and as far south as the DC area. ASPE also earned the 2012 Project of the Year Award from [SEAA](#) (Steel Erectors Association of America) for the Keene Pedestrian Bridge.

ASPE, a family business founded in 1982 by Ray Cilley, (center) is now run by sons Joshua Cilley, President, (left) and Mark Cilley, Vice President (right).
