STEEL ERECTORS ASSOCIATION OF AMERICA

SC&RA Offers Free Assembly/Disassembly Guides to Members

SC&RA has developed two guides for assembling and disassembling of mobile and tower cranes. These free nine-page guides provide a comprehensive list of tasks and delineate specific responsibilities for the controlling entity, crane owner, crane user, assembly/disassembly director, site supervisor, lift director, and crane operator.

SC&RA member companies can download PDF files of the guides from the "Members Only" section of the association's website, www.scranet.org, and print as many as needed.

Additionally, SC&RA developed carbonless copy versions of the two-part forms found in sample page format in the assembly/disassembly guides. Both versions are available to SC&RA members in sets of 25 for \$12.
