

## New Guides and Reports Available

The **LECTURA Guide: Cranes 2013/2014** lists all important manufacturers including machine categories, types, and costs as well as recommended prices for used machinery over the last 10 years. This publication is available in 8 languages: German, English, French, Italian, Spanish, Russian, Polish and Chinese. Published in July, 2013, the guide costs \$225.00 and is available from [www.khl-infostore.com](http://www.khl-infostore.com).

## CT 100: 2009-2013 Top List

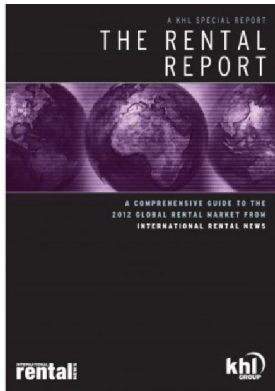

American Cranes & Transport's ACT 100 tracks the largest crane-owning companies in North America. This new five-year compilation provides expert analysis and opinion of the highs, lows, and trends the U.S. crane industry has undergone during the 2009-2013 period.

The ACT 100 list grew exponentially in 2013, as did all categories of the list (for the first time since 2009), including the overall ACT 100 Index. The ACT 100 is the largest and most comprehensive list of U.S. crane companies.

The report is in English and all prices given are for DIGITAL format only. Published July, 2013, the report costs \$160 and is available from : [www.khl-infostore.com](http://www.khl-infostore.com).

## The Rental Report 2012

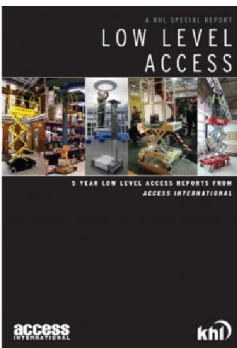

International Rental News (IRN) and KHL Group has just published the 2012 edition of The Rental Report. This document provides an overview of the world's equipment rental sector by IRN editor Murray Pollok, a report on the global construction market by Chris Sleight, editor of International Construction, and over 50 pages of supplier and services listings.

The listings provide details of thousands of suppliers covering everything from excavators, mobile cranes and aerial platforms to rental software specialists, asset tracking companies and rental associations. This year the listings have been expanded with the addition of more than 25 Chinese manufacturers of self-propelled aerial platforms and construction hoists.

Also included in the report is the most recent IRN100 list of the world's largest 100 equipment rental companies, reprinted from the July-August issue of IRN.

Published December, 2012, the report costs \$160 and is available from [www.khl-infostore.com](http://www.khl-infostore.com).

## Special Report: Low Level Access

The Low Level Access Report from KHL Group compiles articles about Low Level Access aerial platforms from the pages of *Access International* magazine and its US sister publication, *Access, Lift & Handlers (ALH)*.

The articles and opinion pieces in the report were all published over the five-year period from 2009 to 2013. The report provides not only an in-depth view of how the Low Level Access sector is developing worldwide, but also shows how its growth has been influenced over recent years.

Published June, 2013, this 28-page report is available only in digital format at a cost of \$160 from [www.khl-infostore.com](http://www.khl-infostore.com).
