OSHA Offers Online List of Courses for Employee Training

The Occupational Safety & Health Administration (OSHA) offers a wide selection of training courses and educational programs to help broaden worker and employer knowledge on the recognition, avoidance, and prevention of safety and health hazards in their workplaces. OSHA also offers training and educational materials that help businesses train their workers and comply with the Occupational Safety and Health Act.

Now OSHA’s website has a new feature that allows you to search online for OSHA training courses, which are available at this link: https://www.osha.gov/dte/ecd/course_otiec_search_public.html.

This site references training courses, educational programs, and training materials and resources that are administered by the OSHA Directorate of Training and Education.
