

Get Ready to Submit Your Work for SEAA Project of the Year Deadline is January 31, 2014

For more than 10 years, SEAA has recognized complex and unique steel erection projects throughout the world. Past winning projects demonstrated successful completion while overcoming unusual conditions, tight time constraints, or other challenges. Many of the jobs that have been recognized are public works projects, including bridges, highways, and overpasses. Others are new construction of museums, hospitals, sports arenas, airports, and more. One of your current projects could be a winner!

Projects are recognized in three categories: Over \$1 million, \$500,000 to \$1 million; and up to \$500,000. So check out the nomination form, get your photos ready, and plan to nominate your project. Project winners are announced at the SEAA Convention & Trade Show, March 12-14, 2014 in Dallas, TX.

Check out previous winners on our website.
